

Summer Enrichment Program 2017!

Winchester's own teachers have submitted course proposals in subject areas they are passionate about. We hope that many children will share their interest and sign up this summer. Children will benefit from small classes with expert teachers! Our goal is to reach out to all learners expand their love of learning.

Classes for students prek through grade 12 and include art, science, drama, gardening, crafts, sports, cooking and more!

Please take a look at our website:
